WEEK 12 — VIDEO SCRIPT

3:30 demo script (record after deployment)

0:00–0:30: Introduce the merchant's problem; explain the demo uses fictional data.

0:30–1:10: Open the live URL and show the three summary cards.

1:10–2:00: Add a sale; show updated totals.

2:00–2:35: Try an invalid amount; show validation.

2:35–3:00: Download CSV; explain self-reported evidence is not credit approval.

3:00–3:30: Reflection: I initially thought a full AI credit score was necessary. The core need is simpler: help people structure what they already know, with visible limitations.
